India has one of the largest as well as the youngest workforce in the world. This is potentially one of the most

integral factors that can make the country a global economic giant. But the current gap between skills required by the industry and the skill level of the incoming/existing workforce is making the situation that could potentially head towards disaster with a rise in unemployment despite availability of jobs as well as steady enrollment in higher studies.

To mitigate this, the proposed program aims to bridge the skill gap by providing students from tier 2/3 institutes, typically from underserved communities, with future skills that bring up their employability index. The program proposes to impart future skills such as cognitive thinking, problem-solving, effective communication, teamwork, etc. along with IR 4.0 skills centered around Data Analytics and Cloud Computing ensuring current career readiness along with future readiness. The program also aims to drive the capacity building of teachers to achieve a ripple effect to broaden the reach of the program. The program will be deployed in a blended format with experiential learning elements such as expert talks, bootcamps, and project-based learning

Program Implementation:

Duration: August 2023 to July 2024

Target number of learners: In the state of Telangana, Tamil Nadu, Kerala, Maharashtra, Andhra Pradesh & Karnataka the program aims to train 3000 students from Engineering and /or Sciences background

Student training will be a structured and exhaustive engagement program for the pre-final and final year students, with a strong focus on helping them develop the relevant digital technology skills through a project-based learning methodology. The program will enable the students to

- build strong foundational and industry relevant skills in the respective technology vertical through hands-on experiences
- learn complimentary skills through self-paced learning opportunities and modular engagements like expert talks, bootcamps, etc.
- reinforce their learning through mandatory project work aimed at building technical solutions for realworld cases under mentorship of master trainers/industry experts.
- Enhance their overall employability and provide with opportunities for internships/ jobs/microentrepreneurship.

Student training to be divided into two cohorts -

- Cohort 1 for students from engineering colleges to train them program content and provide access to employment opportunities through jobs/internships to eligible students
- Cohort 2 for learners from non-engineering institutions to build their capacity on fundamentals and provide access to employment opportunities through jobs/internships to eligible students

The Industry can:

- Extend help and give constructive suggestions while designing the curricula.
- Assist faculty while developing skills with specific technology to the students.
- Give live projects/internships to the students and guide them in professional way.
- Enrich teaching programmes/technical competitions by giving awards.

During its tenancy, the MoU may be extended or terminated by a prior notice of not less than six months by either party. However, termination of the MoU will not in any manner affect the interests of the students/faculty/scientists who have been admitted to pursue a programme under the MoU.

College of Engineering & Monagement Research (KJCOEMR), Pune and AEROSYS, HVDC SOLUTIONS LLC, UAQ (U.A.E) are intended to facilitate the process of close Industry Institute Interaction (I-I-I) and actively promoting fresh avenues for the same. This MoU shall strive to enhance interaction with students, faculty and bridge the gap between Academia, Industry and Corporate World. This will have a positive impact on the engineering curriculum, exposure of industrial atmosphere to engineering students and subsequent placement in industries across the globe.

Vision: To create avenues for the students to have greater exposure for industrial environment and establish preferred institute for recruitment and research.

Mission: To create KICOEMR as a hub in industrial research, consultancy and continuing education and to create an environment to synchronize the skills of students with the needs of industry.

The Institute can:

- Encourage, enhance, and create avenues and environment for greater involvement of faculty and staff with industry for R&D and consultancy.
- Arrange workshops and training programs for Industries to adopt latest technologies.
- Provide representation for or invite representatives from Industries on Board of Studies,
 Faculties, Academic Councils, and Governing Body etc.

Provide testing and certification facilities.

Report on Skill Academy Talent Exam (SATE) 2023 by Testbook

We are thrilled to share the details of the Skill Academy Talent Exam (SATE) 2023, a significant initiative by Testbook aimed at nurturing the talents of students from partnered colleges across Maharashtra. SATE 2023, one of the largest talent hunt exams in the state, was conducted in offline mode, aligning with the latest MNC hiring norms, ensuring that students are prepared for the professional world.

Key Highlights of SATE 2023:

1. Zero Registration Fee:

 Testbook ensured that financial constraints did not hinder any student from participating by eliminating the registration fee, making the opportunity accessible to all.

2. Rewards Worth Over ₹3.5 Crores:

SATE 2023 offered a staggering ₹3.5 crores in rewards, including scholarships and courses, underscoring Testbook's commitment to recognizing and rewarding academic excellence.

3. Free Participation Certificates:

 Every participant received a certificate, acknowledging their effort and participation in this prestigious event, adding value to their academic portfolios.

4. Grand Prizes:

- 1st Place: The top performer was awarded a fully sponsored Goa tour along with a free Skill Academy course worth ₹60,000.
- Top 10 Winners: The top 10 students were rewarded with an exclusive corporate tour of Testbook's office in Navi Mumbai, along with an opportunity for direct interaction with the founders.

5. Scholarships:

 Scholarships worth ₹3 crores were awarded to top performers. Additionally, free mini skill course certifications valued at ₹15,00,000 were also distributed, empowering students with valuable skills for their future careers.

Event Details:

Date: 11th October 2023

Time: 11:00 AM to 12:00 PM

O PU/PN/ENGG

378/2009

Venue: KJCOEMR

Total Participants: 348 students

The event was a resounding success, with all 348 students actively participating in the exam. The test results have been declared, and the excitement among the participants and winners is palpable. The event was coordinated by Mr. Rajusing Rathod, with additional support from Mr. Satish Yedage, ensuring smooth execution.

SATE 2023 stands as a testament to Testbook's dedication to empowering students by providing them with opportunities to showcase their talents and achieve academic and professional success.

The Department of Electronics and Telecommunication Engineering, K J College of Engineering & Management Research (KJCOEMR), Pune and Palp Technologies, Pune are intended to facilitate the process of close Industry Institute Interaction (I-I-I) and actively promoting fresh avenues for the same. This MoU shall strive to enhance interaction with students, faculty and bridge the gap between Academia, Industry and Corporate World. This will have a positive impact on the engineering curriculum, exposure of industrial atmosphere to engineering students and subsequent placement in industries across the globe.

Vision: To create avenues for the students to have greater exposure for industrial environment and establish preferred institute for recruitment and research.

Mission: To create KJCOEMR as a hub in industrial research, consultancy and continuing education and to create an environment to synchronize the skills of students with the needs of industry.

The Institute can:

- Encourage, enhance, and create avenues and environment for greater involvement of faculty and staff with industry for R&D and consultancy.
- Arrange workshops and training programmes for Industries to adopt latest technologies.
- Provide representation for or invite representatives from Industries on Board of Studies, Faculties, Academic Councils, and Governing Body etc.

- Office Productivity Suite (MS Office, Star Office, Open Office etc.)
- Antivirus (McAfee, Norton Antivirus etc.)
- · Compression Utility (WinZip, Winrar etc.)
- Adobe Acrobat Reader 9.0 or above
- · Browsers Internet Explorer, FireFox, Chrome etc.)

UPS Specification: as appropriate for the H/W infrastructure.

Air Conditioner specification: as appropriate for the facility utilized.

Furniture & Fittings: Work stations with side cupboards, projection arrangement (screen + stand), white board, lighting etc.

Power and Back-up: as appropriate for lighting, air conditioning and UPS

Network Security: It would be in the common interest of KJCOEMR and RPGF to protect their computers and authors' work against unauthorized access.

To achieve at least minimum level of network security, RPGF recommends the following components:

- Appliance based firewall (Cisco PIX etc.)
- · Internet Proxy Server (Squid, Microsoft ISA Server)
- Antivirus

Other facilities required: Server Placements: The servers and network equipment to be placed in secured enclosure prevent unauthorized access.

Proxy/Firewall: A firewall must be placed between the internet and the KJCOEMR LAN to allow only legitimate traffic into the KJCOEMR. An appliance based firewall is recommended but KJCOEMR may also opt for software based firewalls, if the number of computers is less.

In case of a large number of users accessing the internet, a proxy server should be used to increase internet performance by caching and also putting in controls required to access the internet.

Printer: Institutions should install at least one printer per batch of 30 students. A network laser printer is most suitable for large networks.

Projector + Screen: A portable LCD projector may be required by the students to discuss and conduct presentations. It should preferably be placed in a discussion room.

Video Conference facility: College/Institute shall provide access to VC facility whenever required to students for planned VC sessions.

Maintenance & Support: An annual maintenance and to make software & hardware vendor to cater for maintenance regularments and progrades.

Duration of MoU: 01/07/2023 - 01/07/2028

The **Department of Civil Engineering**, K J College of Engineering & Management Research (KICOEMR), Pune and Asian Academy of Professional Training India Pvt. Ltd., Pune are intended to facilitate the process of close Industry Institute Interaction (I-I-I) and actively promoting fresh avenues for the same. This MoU shall strive to enhance interaction with students, faculty and bridge the gap between Academia, Industry and Corporate World. This will have a positive impact on the engineering curriculum, exposure of industrial atmosphere to engineering students and subsequent placement in industries across the globe.

Vision: To create avenues for the students to have greater exposure for industrial environment and establish preferred institute for recruitment and research.

Mission: To create KJCOEMR as a hub in industrial research, consultancy and continuing education and to create an environment to synchronize the skills of students with the needs of industry.

The Institute can:

- Encourage, enhance, and create avenues and environment for greater involvement of faculty and staff with industry for R&D and consultancy.
- Arrange workshops and training programmes for Industries to adopt latest technologies.
- Provide representation for or invite representatives from Industries on Board of Studies,
 Faculties, Academic Councils, and Governing Body etc.

Provide testing and certification facilities.
